CONDITIONS OF SALE.

Please Read Sale Terms Before Bidding.

This is a bona-fide public sale, for prompt cash settlement, and irresponsible persons who are not sure whether they can pay for what they bid on, are asked not to bid. The cataloguer has taken special pains to describe each lot accurately. Errors will be corrected, but he reserves the sole right to decide upon any claims. No corrections or refunds will be made, and no lots can be returned, unless the bidder submits his case in writing within **30 days of the date of the sale.**

Coins and medals are sold at so much per **PIECE**, and no lot will be separated. You cannot buy a few pieces out of a lot but must buy all of it. The auctioneer will accept no bid under 10 cents to start a lot where that lot contains only one piece; nor will he accept any advance under 5c on any lot containing but one piece; after the price has reached \$2, no advance under 10c will be accepted on any lot containing one piece; after \$5.00 the bid must advance 25c each time; after \$10 no bid under 50c.

Our rules regarding lots containing more than one piece will remain unchanged and the same as before.

Auction sales are strictly for cash. Parties unknown to me and bidding for the first time, must give bank or other reliable references, or their bids will not be executed.

Forward your bids as early as possible, as thousands of bids have to be entered. Do not make ridiculously low bids, such as 10c and 15c on foreign silver coins worth several times over as bullion. Write your bids plainly, with a pen if practicable.

Where the number of pieces in a lot is not given after the description there is but one piece in the lot.

Be sure you bid on the lot you wish to buy. We cannot correct such errors.

All coins, etc., are genuine unless otherwise described.

A charge of 5% will be made to cover packing but where the parcel is bulky an additional packing charge will be made. No charge made for bidding except for lots actually purchased. Remit by money order or New York draft.

If any further information is required as to valuation of lots, or how to bid, please write the cataloguer, THOMAS L. ELDER.

Important Notice. We keep two books of the sale recording each lot as sold, and we will not accept any sale records from outsiders. **Our records are final.**

SALE OF THE RAUSCH AND OTHER COLLECTIONS, PART II.

Pleasantville, Westchester County, April 20, 1938.

Dear Collector:

Having moved my effects out of New York City, and gotten away from the noise, bluster, tribulations and overhead of a great city, and having moved all my coins, paper money, curios, gems, into Safe Deposit vaults in Banks, where they will be permanently safe, I am offering you a most interesting and attractive Mail Auction Sale of various collections, including portion of the large Rausch Collection of coins made by a gentleman in Philadelphia, now deceased, between the years 1881 and 1903.

A glance through this catalog will convince you it is up to the standards set by me in former years. The lots are carefully catalogued to avoid over description and any errors, and I am hoping you will continue your patronage by sending me a generous number of bids for this fine sale. Mail Auctions are just as bona-fide as any others. Witness my own experience in bidding at other mail sales for the past fifteen years or over with success and satisfaction. By sending a few bids you will mightily please me.

The lots cannot be conveniently exhibited, and there seems to me no necessity for so doing, as they are exactly as described and fully listed. Examining coins at auctions gets to be a habit which is in some respects entirely unnecessary if a man is familiar with the coins he wishes to bid on. Collectors will not be admitted to the sale.

The bids are by **the piece**, exactly as before at my New York Sales, and the lots must be paid for promptly. No time or credit allowed to anyone. New bidders must send me gilt-edged reference, or else 25% deposit of the amount of bids made. Any lots not secured I will promptly refund on. Stamps are sold by the entire lot.

For **auld lang syne**, I ask for some bids for this sale. I shall not hold another sale until the end of September, which will be several months off. So make hay while the sun shines and secure for your collections some of these good coins in all metals listed herein. Be careful. Bid on right lots.

A packing and shipping charge of 5% will be charged, as heretofore. The lots are actually sold, not to be construed as on approval. Am sure you will be pleased with any lot you secure at this sale. Small lots by insured mail.

Write me if you want to know the value of any lot in the sale. Will give a prompt estimate, which will enable you to make an intelligent bid.

Bid the most you will pay if I can save you some from your bids will do so. The one bidding the most gets the lot at just over the second bid.

Don't fail to send me some bids and do it promptly and signify in so doing that you want my September sale catalog which I shall prepare during the present summer. **Date of this sale, Saturday, May 14th, 1938.**

With kind regards, and sincere thanks for your patronage during the past years, believe me

Yours sincerely,

THOMAS L. ELDER.

BE FAIR IN BIDDING.

Don't Miss This Opportunity to Secure Desirable Coins, Paper Money, Etc.

Nobody can blame a collector for wanting to secure lots at fair prices. But collectors should be willing to act fairly in bidding, and remember that coin sales aren't held without large expense, or without large printer's bills, which are over double what they used to be, while commissions haven't risen at all. Don't forget many will send bids and some will send very low bids. These low bids usually secure very little, if they are too meager in their offers. For instance, bids of \$29 on \$20 gold pieces, 10 to 12c each on **good** half cents, 51 cents on half dollars, \$1.91 on very fine gold dollars—such offers are entirely too low and don't pay for the cost of offering the lots. There isn't the slightest use in bidding under 60% over face value on any gold coin. It can be melted down for more than 60%. Silver dollar-sized coins can be melted down for 40 cents, so bids of 30 to 35 cents apiece are not worth entering and a waste of time to bother with. Besides we don't have a 100 cent dollar any more, naturally, but a 59 cent one, which the present cost of commodities reveals. So while keenly sympathetic with the desire to get good values in coins don't forget there is a minimum below which coins don't usually sell at auction. This I have noticed by long years of observance. 1856 Eagle cents are selling today from \$25 to \$35 apiece yet we continue to get bids of \$5 to \$7 apiece on the same, from the same collectors who have been after them for many years. Of course they never secure such coins. The brilliant proof 1877 cent has sold in Elder's sales recently for over \$14, so old time bids on 1871, 1872 and 1877 Cents in proof state don't go. Send me a generous number of bids early and you will surely secure some good lots. I have made a special effort to carefully grade these lots. Be sure to write Mr. Elder for estimates on the value of any lots in this fine sale.
